### **Tabuerniga 2015**

Tabuerniga is another extraordinary place in the historical village of Labastida, where the viticulture have had held for more than 1.300 years. Where the stony wine presses of the middle ages around the vineyards, keep an eye over the heritage of the times.

It is an stunning landscape, a concave slope crossed by staves of vineyards. some of them abandoned, some of them being cultivated and many other that we have recovered.

Tabuerniga is a tiny and vertical valley, where its own retreat, has predetermined shorter cycle varieties and a different expression. Sober and austere, but full of depth and elegance.

In between the 540 and 630 meters, this tight and historical terraces, cultivated organically and respecting the tradition, offers an amazing wine.

The most important character or this vintage for us, was the unusual health status of the grapes. We had never seen before this quality and consistency. We barely used the sorting table and even if we realize that the hot vintage offered the earliest harvest ever, the sanity of the vintage is also reflected in the purity of our wines. Tabuerniga is a perfect example. Pure, clean, bright. Wine to enjoy from now the next decades.

1.980 bottles produced.
